

What Your #1 Requirement in a Blowmolding Machine ? High Quality? Low Scrap? Compact? Low Labor? Reputation? Great Value? With Bekum and Aoki, We've Got You Covered!

"We Build Industry Workhorses"

**BEKUM Machines
Designed for 24/365 Duty**

BEKUM AMERICA offers:

- Rugged, Reliable Designs
 - Process Flexibility
 - High-Quality Bottles
 - US Service & Parts
- Fast, Repeatable Output
 - Ease of Operation
 - Ease of Maintenance

This is our Industry Workhorse H-155, a US-manufactured press. Bekum America has over 100 employees at their Williamston, Michigan facility. Bekum's only focus is extrusion blow molding and they stand ready to put their vast experience to work for your company. Call us today.

**...Profit From
Our Experience**

Lab Machines Available

BEKUM has Machines Available for Demos & Trials. Mono and 6 layer Coextrusion

Package Design

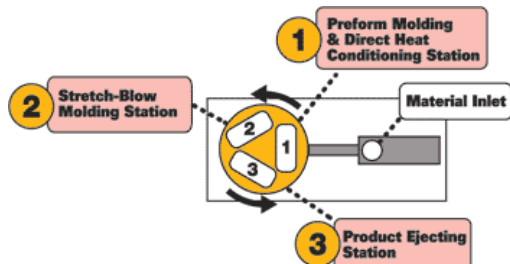

BEKUM Staff has experience in diverse Packaging Applications and stands ready to assist you.

**"MAKE BOTTLES FOR THE
COST OF PREFORMS"**

Aoki's proprietary 1-Stage, 3-Station Stretch Blow Molding technology allows Aoki machines to mold PET, PP, PEN and other containers for 2/3 the cost of competitive machines. Aoki designs eliminate the need to reheat the preforms in order to produce a container, which saves energy and cost, and also reduces defects.

Aoki integrates preform molding, stretch-blowing, and product ejecting into one machine to simplify your injection stretch blow molding operations.

The AOKI three-station process is the most efficient design around. Direct HEATCON saves energy by not having to reheat (or condition) the preform after molding.

THE AOKI RESULTS?

- Compact Footprint.
- Major Energy Savings.
- Process stability.
- Higher Quality.
- Reduced Defects.
- Simplified Design.
- Lower Production Costs!

It's quite simple—We help you make better containers for less money!

MACHINESBIII-500LL-75

AOKI TECHNICAL LABORATORY, INC.

Aoki makes a complete range of machines designed for every application and output requirement. When quality, repeatability, and ease of operation are required, Aoki is the right partner. Call us for our recommendation for your application.

Demo Machines Available

**AOKI has Demonstration Facilities
Available in Elk Grove Village, IL.**
